

2018 - 2019 JCC Booster Club Membership Drive

The JCC Booster Club is an organization developed to support the student athletes and athletic programs at Jackson County Central High School. We encourage members of our community to help us support the JCC athletic teams by becoming a member, or renewing your annual membership.

The booster club has contributed approximately \$80,000 to our athletic programs over the last four years. This does not include our on-going support of the varsity athletic awards and banquets, as well as coaching clinic registrations. This could not have been accomplished without the help of numerous volunteers and the financial support of community members and businesses. **A HUGE THANK YOU to all who support the Booster Club!!**
